

CONTRACT PARKER

PARKINGHQ® CONTRACT PARKER - Season Parking made easy and efficient

Season parking tickets offer highest convenience for those of your customers who frequently go in and out of your (office) car parks for a sustainable period of time. However, obtaining such a ticket in the past was an inconvenient burden, hindering widespread success. Furthermore, administration of contracts, parking card production and invoicing/billing was a labour-intensive, costly process. Now, thanks to ilogs and ParkingHQ ContractParking, season tickets can be easily booked online, and your back office, administrative workflows are optimized, automated and yet more flexible. And so is your invoicing/billing process. Pure convenience. Pure efficiency.

You like it, your customers like it.

ADMINISTRATION PORTAL

Operate and optimize your contract management with a strong backend web-application and integrated workflow engine

The screenshot displays the 'Contract Parker' interface. On the left is a sidebar menu with options: Admin, Overview, Reporting, Operations, Administration, Configuration, System Interface, Tenants, Facilities, Capacities, Access types, Products, Tariffs, Tariff Simulator, and Fees. The main content area shows a table of contracts with columns: Id, Order Id, Parking unit, Parking area, Product, Customer, Start date, End date, State, and Gross Amount. Below this, a 'Parking contract, January 2...' view shows a 'Parking Statistics' table with columns: CW, Entry date, Exit date, Duration, Drive-In Id, Parking area, State, and Amount (EUR). The table lists several entries with their respective dates, durations, and amounts.
